zyclon  
Mumps outbreaks occur in India every 5 to 10 years.

BRIDGE THE GAP WITH COMPLETE PROTECTION

Independently developed  
MMR vaccine with a novel  
combination of 9 potent strains

**VacMMR**

Protection with triple advantage

Get your child vaccinated before the outbreak starts at 18-24 months  
at least 1 year before the outbreak starts. This is the best time to get your  
child vaccinated. For more information, visit [www.zyclon.com](http://www.zyclon.com)

Influenza vaccine

Inactivated vaccine : vaxiflu 4 ; MC
